I talked to rafael and he indicated that it is located in the guidance for developing QAPP's. See the following documents I got realtive to another site.

The general QA Staff (HQ) web pages is:

http://www.epa.gov/quality/qa_docs.html

The outline-checklist for QAPPs abd QMPs are as follows:

(See attached file: QA-QMPreviewChecklist.wpd)(See attached file: QAPPcklfont.wpd)

[Both of these latter documents are best printed landscape]

Great, I'd much rather send a CD than more paper.

You mentioned in a previous email that we're required to have a quality management plan, yet I've re-read the AOC's and do not see a mention to such a plan. Do you know where it's written?

No. If you have made the changes that I requested then you can send them to me on CD in .pdf format. I will check to make sure that the changes were made. You may want to provide a cover sheet which shows the page that where the changes were made. I am also requesting that all documents that you send to me be .pdf format. Thank you.

I've made the changes that you suggested and put in a section about getting GPS coordinates for impacted soil areas.

Do I send you three more Draft copies for your review?
